“*What is a brand?*”

Brand is not your logo...

CIMB BANK

OCBC Bank

Bank Muamalat

Brand is not your store...

Brand is not your product / service...

You do not own your brand.

A close-up photograph of a yellow piggy bank. The piggy bank has a smooth, glossy finish and a simple design with two small black dots for eyes. A red, textured ribbon is tied around its neck, extending upwards. The background is a solid, vibrant orange color.

A brand is a person's gut feeling about a product, service or organization.

Branding is using marketing to influence peoples' attitude towards and perceptions of the brand.

What can I do to improve my brand?

Have a mobile-friendly website

Educate your audience using video.

Stay top of mind by advertising online.

Engage with your audience where they are.

Benefits of Social Media for Business

Increase brand awareness

With nearly half of the world's population using social media platforms, they're a natural place to reach new and highly targeted potential customers.

*"... 60 percent of Instagram users say they discover new products on the platform."
(Hootsuite)*

Humanize your brand

To connect with customers—and potential customers—you've got to show the human side of your brand. How are you embracing your brand values? (Do you even have brand values?) How are you looking out for the best interests of your customers and employees? Does your product really work?

Stay top of mind

Most social media users log into their accounts at least once per day... and many people are checking social multiple times per day.

Social media gives you to the opportunity to connect with fans and followers every time they log in.

Reputation management

Your customers are already talking about you on social media, whether or not you're there to respond. If you and your team are on the ball, you can pick up on important social posts about your brand to highlight the positive and address the negative before it turns into a major issue.

Customer and audience engagement

Social networks give you the opportunity to interact directly with customers and fans, and likewise give them the chance to interact directly with your brand. Unlike traditional media, which offers only one-way communication, social media is a two-way street.

Customer service and customer support

People expect brands to be available on social media and seek out their social accounts for customer service. Research published in the Harvard Business Review shows that brands who don't meet those expectations damage their bottom line.

Foster trust. Invest in security measures.

If it's not dealt with promptly, a severe data breach can quickly spiral out of control, along with your reputation:

- You become the subject of highly negative social media chatter
- Negative ratings and reviews flood the internet and dominate Google
- Your company is listed on scam advisory websites
- Legal action may be taken if your business is found to be at fault

A dramatic sky scene featuring a large, bright, sunlit cumulus cloud in the center, surrounded by darker, more ominous clouds. The lighting creates a strong contrast between the bright white of the central cloud and the deep blues and greys of the surrounding sky.

Provide reliable service at any circumstance.

At the end of the day,
your brand is how
consumers feel about
you.

Disasters in the Philippines

Costliest Philippine typhoons

Rank	Names	Dates of impact	PHP (B)
1	Bopha, (Pablo)	11/25–12/9/2012	42.2
2	Haiyan, (Yolanda)	11/3–11/11/2013	35.5
3	Parma, (Pepeng)	10/2–10/10/2009	27.3
4	Nesat, (Pedring)	9/26–9/28/2011	15
5	Fengshen, (Frank)	6/20–6/23/2008	13.5

Deadliest recorded earthquakes in the Philippines since the 1600s

	Magnitude	Location	Date	Mortality
1	7.9	Moro Gulf	08/16/1976	4791
2	7.8	Luzon Island	07/16/1990	1666
3	7.5	Luzon Island	11/30/1645	More than 600
4	7.3	Casiguran, Aurora	08/02/1968	271
5	7.2	Bohol & Cebu	10/15/2013	222

IT DISASTER

One out of every
14 drives will fail
within a year.

IT DISASTER

Half of all businesses
that lose their data
due to disasters go
out of business
within **2** years.

Productivity Loss

How many hours were lost?
How many employees?
How much does an employee make?

Sample Computation:

16 hours (2 days) x
50 employees x
PhP 500 = **PhP 400,000**

Revenue Loss

Single Loss Expectancy (SLE)

Expected monetary loss every time a risk occurs

Example:

Average daily revenue	P1M
Incident response & forensics	P500k
Customer & IT Support	P500k
Legal (Defense, Settlement, etc)	P3M
Penalties	P500k

SLE

P5.5M

Reputation Loss

1 dissatisfied customer will tell

16 other people, who will influence

250 people

80 potential customers LOST

What is Cloud Computing?

Any service that is hosted over the Internet by a third party

Services can include the storage of data and the processing of transactions

Cloud as your Data Infrastructure

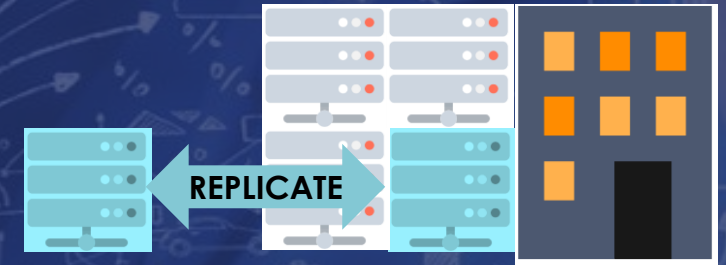

VIRTUAL PRIVATE CLOUD

Virtually increase your physical data storage capacity through a pay-per-use cloud storage.

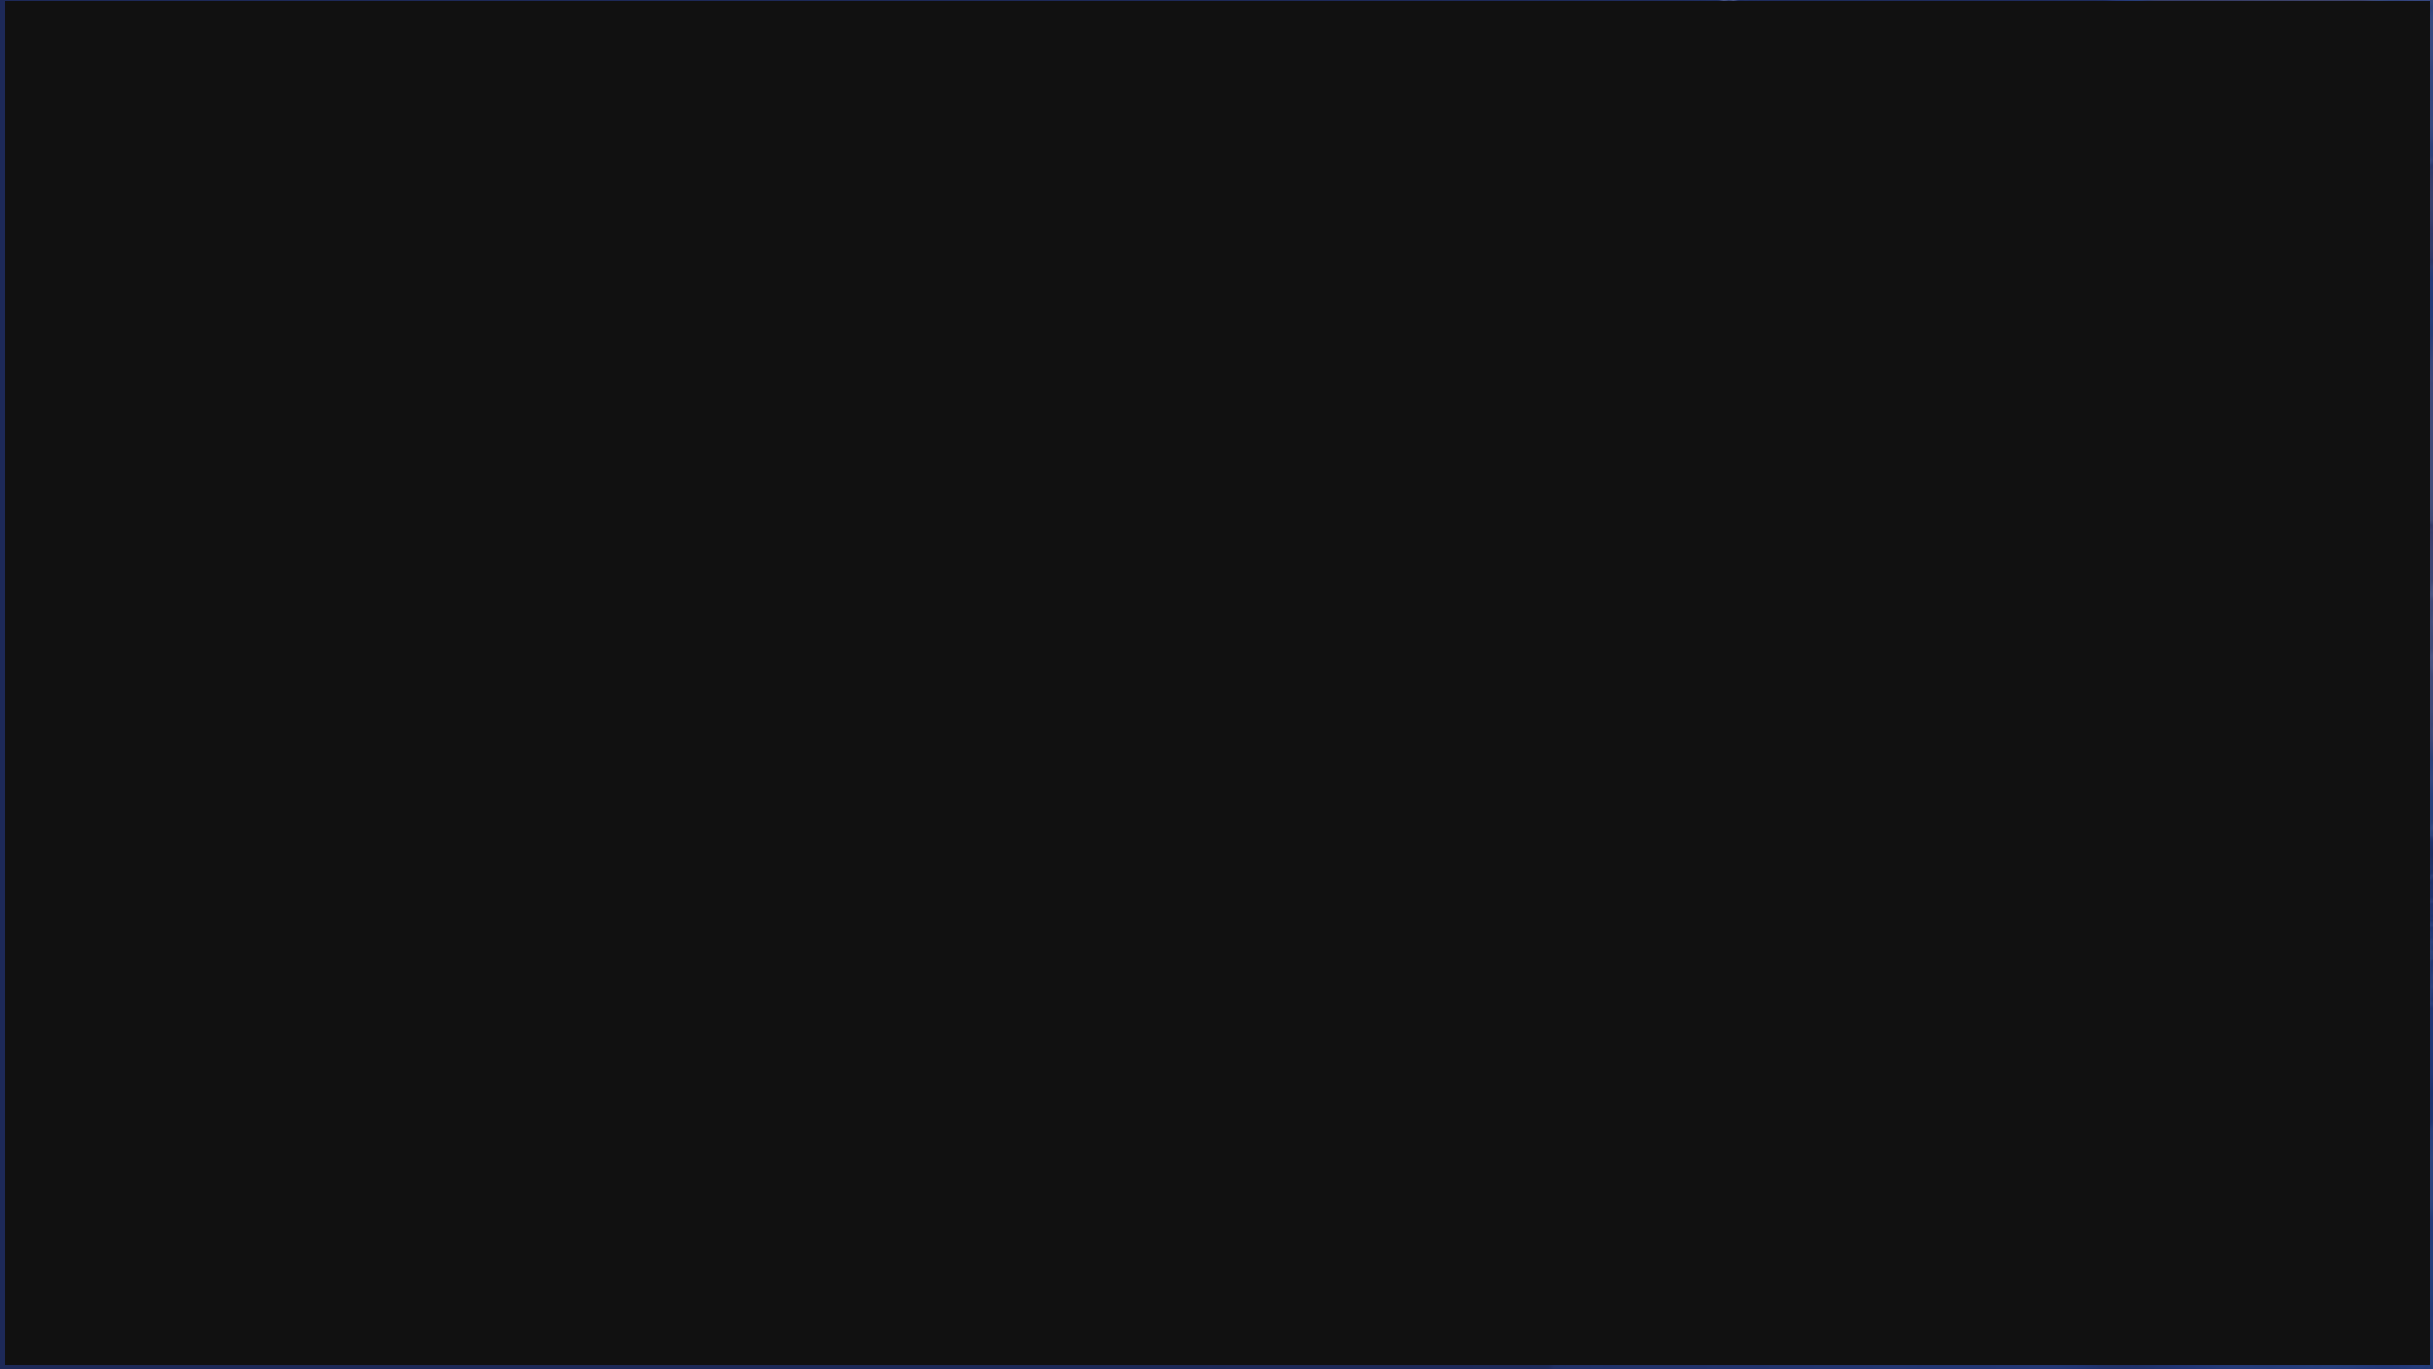

BACKUP-AS-A-SERVICE

Safeguard your critical data and applications from uncontrollable events with on-demand backup solution.

DISASTER-RECOVERY-AS-A-SERVICE

Resume operations with minimal downtime after a disaster when you subscribe to a real-time data redundancy solution.

Benefits of moving to Cloud
